Here Are Some Tips, Benefits, Things I Forgot, & The Video List, Down Below:

I am Michael the “GuyOfGoodness” and I welcome you here!

Tips, tricks, & hints for a better day, every day:

-After many of the exercises, do a couple of deep breaths, exhale forcefully, & think "Release The Negative Memories & Situations In My Life!" From now on, you can just say: "Release"

-Meditate daily-Sit down, close your eyes, relax, do some deep breathing-(see **10 Count Breathing below**), at least 10 to 15 minutes per day- just do it! **How much is a better life worth to you?**

-10 Count Breathing Technique (2,2,3,3): Breathe in 2 counts thru your nose, & in 2 counts thru your mouth, then hold for 3 counts-(this is the healing part), then exhale forcefully for 3 counts-(this is “Releasing the negative cellular memories and situations from your life part). Excellent for meditations, relaxation, stress reduction, a happier life, etc.

-Exercise every day-This program is the answer!

-Do more of the exercises where you are weaker, adapt this program to fit your needs.

-Try to do at least a couple of all of the exercises in the video!

-I found the right number of repetitions for me,--you will figure out what is best for you.

-AGAIN: DO NOT START OUT TOO FAST! Check with your doctor, if needed.

-Most Baby Boomers are not as fit as they used to be, so caution is better than a hurt.

-Here is an extra tip: as you do it a little more & feel more comfortable, you can do a shortened version of the routine at night--**Yes! Twice a day.**

-10 minutes of Massage daily- (4,3,3)—3 Massages with lotion daily: 4 minutes on your face, 3 minutes on your hands, and 3 minutes on your feet. It's harder than you think!

-A better life starts with a better mental attitude—be more positive & happy!

-Remember: **Your health defines a large part of your life!**

-Still In Bed Exercises- 1st thing in morning, in bed, hand massage, foot to foot massage, stretches—etc. —Awesome way to start your day!

-Work your legs more—they carry you your whole life.

- Work this program hard and you Will Sweat!
- Use positive mental attitude builders daily.
- If you can, do high knee lifts as you walk up the stairs.
